

## Peugeot 407

Tuesday, 12 May 2009

Who could have guessed that the all new Peugeot 407 with the latest 1.6-liter HDi 110 engine can do a whopping 48 miles per gallon? That's in fact a 1.6 liter engine we're talking about and it runs on diesel. If you translate 48 miles per gallon into a more readable kilometer format, the Peugeot 407 is doing 4.9 l/100 km of diesel.

Also, Peugeot has unveiled their latest 2.0-liter HDi FAP engine that also boasts very low fuel consumption. It isn't really that fuel economical when compared to the 1.6 liter version, but the 2.0 liter does 42 miles per gallon and it also comes with 140bhp.

Well I'm totally amazed with Peugeot, just take a look at some of the photos of the 407:
